

**Engineered
with Excellence**

CPA Group

Your trusted partner in delivering Engineering Excellence.

At **CPA Group** we unite the expertise of specialised companies to deliver comprehensive solutions in energy efficiency, ventilation, heating, cooling and fabrication. With a strong commitment to innovation, sustainability and service, we have expanded our reach to service both industrial and commercial clients across various international markets.

Our Companies

Each company within the **CPA Group** plays a vital role in our mission to provide Engineering Excellence that enhance performance, reduce costs, and promote sustainability.

CPA
Engineered Solutions

Trusting Us for Your Business Success.

At **CPA Engineered Solutions**, we combine engineering expertise with exceptional service. Since our founding in 1992, we've established ourselves as a leading provider of innovative solutions across a wide range of industries and sectors.

CPA
Compressed Air

CPA
Refrigeration

CPA
Controlled Air

Our three specialist divisions in **Compressed Air**, **Controlled Air**, and **Refrigeration** allow us to offer best-in-class products and turnkey solutions tailored to your specific needs. Our experienced teams are committed to working collaboratively with transparency and integrity, delivering unparalleled service from design to installation, maintenance, service, and repair.

Discover how our expertly engineered solutions can transform your business.

01501 825024

We design, install, and service industry-leading Compressed Air Solutions to drive productivity and efficiency in your operations. Our innovative products are expertly engineered to optimise performance, reduce energy consumption, and promote a safer work environment, ensuring maximum productivity and cost savings.

Whether you require a comprehensive survey, expert installation, reliable commissioning, prompt servicing, or ongoing support, our qualified team is here to assist you at every step.

Discover the benefits of our innovative compressed air solutions and take your business to the next level.

- Compressors
- Blowers
- Dryers & Filters
- Air Leak Survey
- Energy & Demand Audit
- Nitrogen regeneration
- Vacuum Pumps
- Heat Recovery
- Data Log & Reporting
- Installs & Pipe Work

Contact us to discover how our tailored solutions can provide tangible benefits for your business.

Transform your cooling with expertly engineered solutions. Our tailored systems deliver exceptional results, whether you need to cool a product, substance, or process.

Our FGas-certified team specialises in design, installation, maintenance, service, and repair, bringing

- **Air Conditioning Systems**
- **Packaged Chillers**
- **Refrigeration Compressors**
- **Air Blast Coolers**
- **Air Source Heat Pumps**
- **Heat & Cooling Equipment**
- **Condensing Units**
- **Refrigerant leak detection**
- **Refrigeration Controls**

unmatched technical expertise, exceptional service, and a comprehensive understanding of your business needs.

Discover the benefits of our innovative refrigeration solutions and take your business to the next level.

Contact us now to learn more and start maximising the efficiency and performance of your cooling systems.

CPA Controlled Air specialises in comprehensive air management expertise. With a focus on optimising air quality, temperature, and humidity, we deliver tailored approaches for various settings, from commercial buildings to industrial facilities.

By integrating cutting-edge technologies, innovative design, and expert engineering, our solutions ensure efficient ventilation, precise control, and energy optimisation.

- Enershield Air Barriers
- Fast Action & Roller Shutter Doors
- De-stratification Fans
- Evaporative Cooling
- Hybrid Roof Ventilation
- Air Purification systems
- Ultrasonic defoaming systems
- Air knife Drying Systems
- UVGI

Discover the benefits of our innovative controlled air solutions and take your business to the next level.

Contact us to help you achieve business success by leveraging our expertise.

CONFAB
Engineering Limited

We pride ourselves on delivering bespoke fabrication and engineering solutions, backed by a combined 150 years of experience. From fabricating simple conveyors to designing complex, special-purpose machinery, we excel in meeting the unique needs of industries in Scotland.

- **Special Purpose Machinery**
- **2D & 3D CAD Capabilities**
- **Equipment Installation**
- **Reverse Engineering**
- **Health & Safety Upgrades**
Machine Guarding
- **Fabrication/Welding (On & Off Site)**
- **Conveyor Design & Manufacture**
- **Precision Engineering**
- **Sheet Metal Work**
- **Improvement Design**

Our strength lies in combining fresh, innovative ideas with a commitment to going above and beyond, ensuring we exceed our clients' expectations and deliver the highest level of service.

Contact us today to discover how our innovation, precision, and expertise can deliver the results your business needs.
